

PV Series In-Line Centrifugal Duct Fans

For High Static Pressure Applications

Catalog PV01-January 2006

The World's Leading Producer of
Air Movement Products

Power Vent
series

Soler & Palau (S&P) USA and Canada are the most recent additions to, and are wholly owned subsidiaries of, Soler & Palau Group S.A. which was founded in 1951. S&P Group is the World's leading supplier of air movement products with an emphasis on developing and producing leading edge products to HVAC and other associated industries.

Over the past 50 years the company has expanded its product ranges and operations within Europe and beyond. Across the globe, S&P has established the most effective means through subsidiaries, distributors and partners for the distribution of our products. Today S&P has facilities in many countries, among these are: Australia, Belgium, China, England, France, Germany, Holland, Italy, Portugal, Mexico, the USA and Canada. Worldwide, S&P is represented by an established and renowned network of distributors and partner companies.

POWER VENT (PV) SERIES

The POWER VENT (PV) series of direct drive centrifugal in-line duct ventilation fans consists of six model sizes 4", 5", 6", 8" & 10" respectively. All models are designed for direct connection in-line with standard diameter round ducting. Airflow performance values range from 108 CFM (PV-100) up to 618 CFM (PV-250x).

All PV fan models incorporate a powerful external rotor motor that has been factory matched to a non-overloading backward curved centrifugal fan wheel.

This powerful combination enables the PV fans to deliver exceptional airflow performances against high static pressure typically found in ducted ventilation systems. All motors within PV fans are fully speed controllable using voltage or frequency control regulators.

The PV series of duct exhaust or supply fans have been specifically designed for simple installation and many years of maintenance free operation. The PV fans can be mounted at any angle and at any point along the duct. The totally enclosed motor design allows the PV fans to operate in high moisture, lint and dust laden air. All models are manufactured with high quality materials and workmanship that is supported by a comprehensive **five (5) year warranty**.

All PV fans feature a corrosion resistant galvanized steel casing with a black baked enamel coating and are supplied with a strong mounting bracket and prewired remotely mounted wiring junction box. The fan is connected to the wiring junction box with a UL Listed flexible conduit that provides the installer with a completely flexible choice for positioning and installation.

Applications

The PV fans are ideally suited for a wide range of residential, commercial and industrial exhaust and intake ventilation applications. Among typical applications would include the following:

Residential

- Kitchen Range Hoods
- Warm or Cool Air Transfer
- Bathrooms
- Utility Rooms
- Radon Mitigation

Commercial

- Conference Rooms
- Offices
- Bars & Restaurants
- Cafeterias
- Locker Rooms
- Make-Up Air Applications

Industrial

- Warehouses
- Welding Fume Extraction
- Spot Ventilation
- Equipment Cooling
- Workshops & Smoking Areas

Technical Specifications

All six PV model sizes (PV 100, 100x, 125x, 150x, 200x & 250x) include the following specifications:

Warranty

Five (5) year limited warranty.

Casing

- Manufactured from high grade pressed galvanized steel, with black baked enamel coating.
- Extra long inlet and discharge collars make installation quick and trouble free.
- Supplied with a strong galvanized steel mounting bracket.
- Supplied with a remote mounting, prewired wiring junction box.

Wheel / Impeller

- Backward curved centrifugal type.
- Factory matched to an external rotor motor and dynamically balanced to eliminate vibration.

Accessories

A wide range of accessories is available to complete the most demanding installation.

Motor

- Totally enclosed permanent split capacitor start and run external rotor motors.
- 115V 60Hz (single phase) electrical connection.
- Permanently sealed, self lubricating precision ball bearings.
- Safety Thermal Overload Protection Cut-Out (Automatic Reset Type).
- All Models are suitable for working airstreams up to 140° F

Code Approval

- All models have been independently safety tested by Underwriters Laboratories, Inc. and are UL and cUL Listed.
- Independently tested for Airflow Performance. The PV range is licensed to bear the AMCA seal for Air Performance.
- The PV product range is certified by the Home Ventilating Institute (HVI) for Air Performance.

Dimensions in inches/mm

Soler & Palau, SA certifies that the PV range shown herein is licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and comply with the requirements of the AMCA Certified Ratings Program.

Model	A	B	C	D	E	F	G	H	I	Weight lbs(kgs)
PV-100	7 5/8 194	1 25	9 1/2 241	3 7/8 98	6 11/16 170	8 7/8 225	6 1/16 154	10 13/16 275	3 1/4 83	7 3.0

PV-250x	8 1/2 216	1 25	13 1/8 333	9 7/8 251	6 11/16 170	8 7/8 225	7 7/8 200	14 3/8 365	3 1/4 83	13 6.0

Sound

Fan sound levels are measured in sones. At this time there are no sone level test standards available through HVI or AMCA due to the fact that remote mounted fan noise levels are in proportion to the following: type of duct, length of duct, fan distance from the intake source and other random factors. Until a test method is available, no sound data can be made available even though it is generally accepted that remote mounted venting is usually quieter than standard (in room) venting.

Air Performance

Trade Name	Model No.	Nom. RPM	Volts	Max. Watts	CFM v Static Pressure (SP) Ins. WG									Max. SP	Duct Dia. Ins.
					0"	0.125"	0.25"	0.375"	0.5"	0.75"	1.0"	1.25"	1.5"

Performance certified is for installation type D-Ducted inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).

All products manufactured by S&P have undergone extensive tests and quality assurance programs to ensure that the products supplied meet the latest international performance and safety standards. Soler & Palau is an ISO9001 registered company, and has onsite ENAC and AMCA third party accredited test laboratory facilities.
