

V-Series

New Ceiling Mounted Bathroom Fan by RenewAire, a S&P Company

Inline v. Ceiling

- We always recommend inline ventilation first, but in applications where the duct is not accessible, the V-Series is the best bathroom fan on the market.

4 Models 4" or 6" Duct Collars

V50 V80 V110

V150

Energy Efficiency

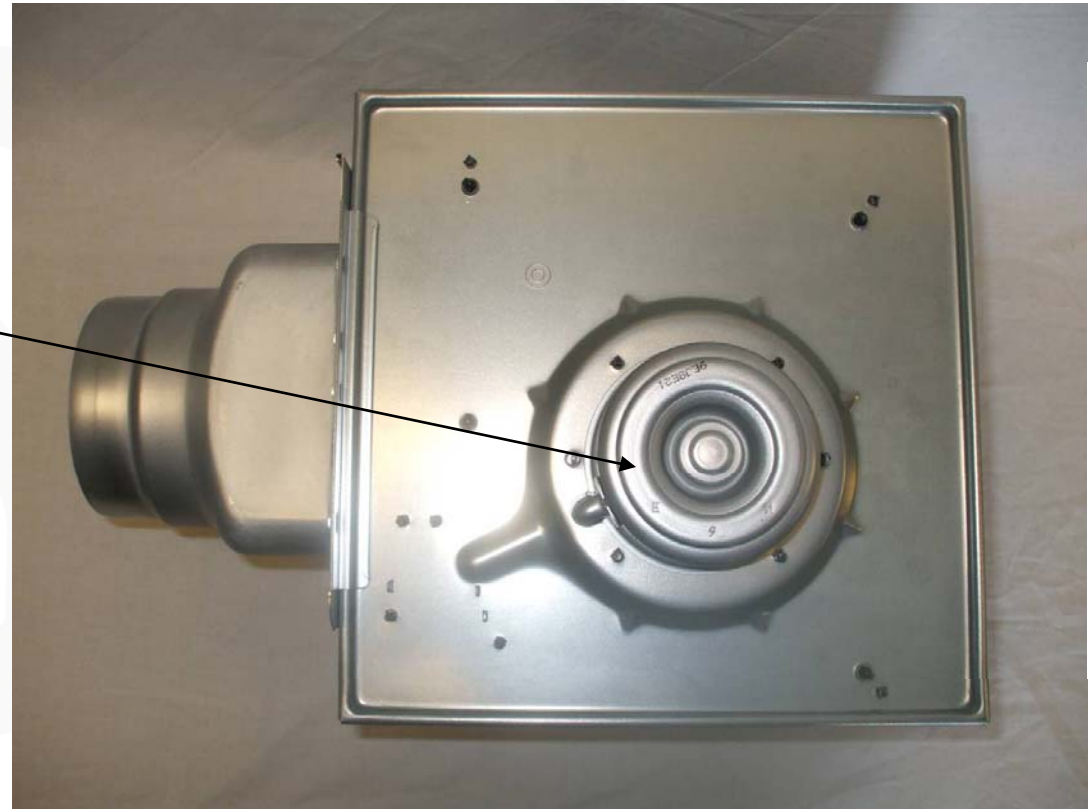

- The V-Series is an AC motor unit that has the energy efficiency of more expensive DC and EC units (like Panasonic) with 4.5 to 5.1 CFM per Watt.
- It is the most energy efficient line of exhaust fans available in North America!
- Aerodynamically engineered to move air with the lowest power consumption and sound levels
- Paired with a VSWITCH the V-Series meets ASHRAE 62.2

V-Series Standard Features

Heat Sink
Motor Mount

V-Series Standard Features

Low air leakage dampers minimize uncontrolled infiltration

V-Series Standard Features

Internal electrical wiring box for more compact size, and easy access from inside bathroom (no need to go into attic)
